Shadow Valley is home to the Total Tennis Training Program which is recognized as one of the finest systems for developing the total player. Our unique system strengthens each of our players physically, mentally & emotionally. Our classes will simplify and advance each player's strokes while teaching them percentage patterns of play so they become tournament "tough."

Our staff is committed to each individual player as they help that player reach their fullest potential. As parents & coaches we have a career commitment to tennis. We also believe that when presented properly the game of tennis teaches young men and women how to face the challenges they will encounter throughout their life.
