

**S**hadow Valley's Junior Tennis Program is recognized as one of the finest organizations in the country for developing young tennis players. This system strengthens each player physically, mentally, and emotionally. Our classes simplify and advance players' strokes while teaching percentage patterns of play so students learn how to become tournament tough. Our pros have a career commitment to tennis and believe when presented properly, the game also teaches young men and women how to face the challenges they will encounter in life.
